Prize Picture Puzzle.

EXPLANATION.—The following picture contains four faces, a man and his three daughters. Any one can find the man's face, but it is not so easy to distinguish the faces of the three young ladies. The picture was published in a few newspapers some time ago, and attracted considerable attention to our standard remedies. We now offer a new prize competition in connection with it. As the sole object is to introduce our medicines into new homes, those who cutered the former competition are requested not to compete in this one. As to the reliability of "The Ford Pill Co.," and the estimation in which their medicines are held in Toronto, Canada, where they are best known, patrons are referred to the daily newspapers, wholesale druggists and leading business houses generally of Toronto.

The proprietors of "The Ford Pill Co.," will give an elegant pair of Shetland Ponice-Carriage and Harness, valued at \$600, (delivered free in any part of the United States, to the Arris person who can make out the three daughters faces. THE DENTAL LAW.

ATTORNEY GENERAL RICHARDS CONSTRUES IT.

A Student Cannot Perform Operations Except Under mm diate Supervision of Preceptor.

Nor Does the Occasional Pulling of a Tooth Fx mpt a Physician From a R gular Examina ion-An Opinion is Also Given On the Building and Loan Association Law.

Attorney Gener . Richards Tuesday gave out two very important opinions. One was on the construction of the dental examination law passed last winter and the other on the construction of the expense clause of the building association law. Appended they are given THE DESTAL LAW. Dr. Grant Molyneaux, Secretary Board of

i ental Examiners, Cincinnati, O.

DEAR Sin- Sometime ago a commun

cation from you to ex-Attorney General

Watson, submitting certain questions

with reference to the proper construc-tion of the act of April S. 1892, regulating the practice of dentistry in this state reached this office. I have delayed answering the communication in the hope that I might have a personal talk with you respecting its contents. In this hope, I have been disappointed, but I give you the conclusions I have reached after a careful reading of the act. First-The words "regularly, since July 4, 1889; engaged in the practice of dentistry in this state," means steadily or continuously engaged in such prac-tice, and the practice of dentistry does not include, I take it, a term of pupilage. There is a distinction between the study and practice of dentistry, just as there is betwee the study and practice of law, or the study and practice of medicine. A person cannot be said to be engaged in the practice of dentistry who is simply a pupil, and is not quali-fied to do and does not do the work of a dentist on his own responsibility. The act itself (Sec. 6991) give a good definition of what constitutes the practice of dentistry. A person who has been en gaged in the practice of dentistry, as above indicated, since the 4th day of July, 1889, whether of age when he be gan the practice or not, comes with n

cate on making the necessary proof and paying the prescribed fee. Second-A graduate of medicine must obtain the certificate of your board before engaging in the practice of dentistry. The exemption set out in section 6991 applies to dental operations performed by legally qual fied physicisms and surgeons in connection with the practice of their profession of medicine and surgery The act recognizes a distinction between such operations inidental to the practice of medicine and surgery and the regular practice of dentistry requiring a certificate from your board.

the class of those entitled to a certifi-

Third-A physician who, in the practice of his pro'ession, per'ormed ocasional dental operations, cannot be said to have been regularly engaged in the practice of dentistry, and hence is not entitled to a certificate to practice under the time extemption of the act. Fourth—The provision of section 5991 but nothing in this act shall be taker to apply to acts of bona fide students o dentistry done in pursuit of clinica, advantages under the direct supervision of a preceptor who is a licensed dentist in this state." does not authorize such students to be sent out by their proceptors to perform dental operations eyond les direct personal supervision. The purpose of the w is to protect the public against the work of those unskilled in dentistry by requering proof of skill before power to practice dentis-try is acquired. It permits, however, the performance of dental operations by students so they may acquire skill which, in time, on the certificate of your loard. will admit them to practice, provided the skill requisite for the protection of the patient is present in the person of the licensed dentist overseeing the work.

Very respectfully, J. K. RICHARDS, Attorney General.

THE B. & I. LAW. flon. W. H. Knider, Inspecto of Building and Lan As-ociations: DEAR SIR-In response to your avox of the 20th ast, requesting my opinion upon certain questions growing out of the enforcement of the act of May, 1891, regulating building and loan associaions, I beg to say: First—In view of the provision of sec-

ion 6 of the act referred to that all exsenses of such association shall be paid out of the entnings only, I am of the opinion that such an association cannot properly pay expenses from its ge eral ind-without regard to the earnings of the association. Second-by section 3, such association

s required to borrow money not ex ceeding 10 per cent, of its assets, and is sue its evid noe of indebtedness thereor," and it is granted urther, "all such other powers as are neces ary and proper to enable such as-ociation to carry out the purpose of its organization. In the light of these previsions, I am incl ned to think that such an associa-tion may law ully neur or create an indebtedness in antic par on of the collection of the surnings or the purpose o paying its expenses, but the expenses must be limited to the amount of earnings of the current year. Pending the collections of the earnings, they may be ant cipated but not exceeded for the e of paying the expenses neces sary to enable the corporation to carry out the purpose of its organization.
